Thornton, CO 80241

RE: Chemistry Certification Renewal

Dear Mr. Pendergrass:

Enclosed is your new Colorado Department of Public Health and Environment Safe Drinking Water (SDW) Chemistry Certificate and scope of accreditation dated December 1, 2011, which is effective through November 30, 2012, unless suspended or revoked prior to that date, and is based on your laboratory successful participation in recent Water Supply Proficiency Testing Studies for the approved parameters.

This certification must be renewed by November 2012. Routine on-site assessments are conducted every two years unless the certification is modified. In all probability there will be an assessment at the time of renewal, our record show that most recent assessment was November 3, 2010.

If you have any questions, or if there are changes that may affect your certification status, you can reach me at (303) 692-3045.

Best Regards,

Happy New Year

Ben Chouaf, Certification Officer
Laboratory Services Division

Enclosures: As Stated

STATE OF COLORADO

Department of Public Health and Environment

Under Primary Agreement with the United States Environmental Protection Agency
Pursuant to the Safe Drinking Water Regulations, 40CFR, Part 141

Certifies

SP ANALYTICA, INC.
(dba) ANALYTICA ENVIRONMENTAL LABORATORIES
12189 Pennsylvania Street
Thornton, CO 80241

In compliance with the criteria and procedures of the EPA Manual for the Certification of Laboratories Analyzing Drinking Water.
The laboratory may perform Chemical analyses on public drinking water for the following parameters:

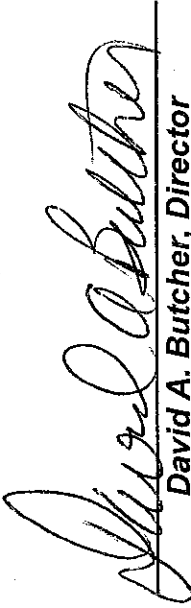

**Trace Metals, Nitrate, Nitrite, Fluoride, Cyanide,
Total THMs, Regulated VOCs (V2, V3), HAA5.**

Approved analytes and methods are delineated on certification list of December 1, 2011.

EFFECTIVE:

December 1, 2011 through November 30, 2012.

David A. Butcher, Director
Laboratory Services Division
